Full-time pressurized oiling to lubricate the pushrod and the hydraulic internals.

The chisel-cut allows oil to quickly enter the oil port of the lifter.

---

From the exterior, it is difficult to tell the difference between the 7790 Limited Travel lifter and similar lifters, like 7717, which are not Limited Travel. Therefore, the 7790 has a plated retaining clip, as a visual clue.

The retaining clip on the 7717 is not plated.
