

How to recognize O/C, L/H or R/H Lifters

1. Hold the Lifter Pair with the Tie Bar away from you and look into the Body.
2. Observe how the seats are drilled for the Tie Rods: O/C, L/H, R/H.

Example of a Lifter where the seat is drilled On-Center (O/C)

Example of a Lifter where the seat has a Left-Hand (L/H) Offset

Example of a Lifter where the seat has a Right-Hand (R/H) Offset
