

BLACK MAMBA ROLLER LIFTER SERIES®

New Product Announcement

Black Mamba .875 dia lifters for Ford SB/BB engines

1. .875 Dia with greater load carrying capacity than our 1" lifter
2. Axle Dia .470" Special Matrix Material (B624L)
3. Full-time Pressurized Oiling to feed the Pushrod
4. Full-time Pressurized Oiling to feed the Lifter Wheel
5. Wheel runs in an Oil-Wedge, like main bearings on crankshaft
6. Diamond-Like Coating for less friction and wear durability
7. Rebuildable
8. Currently available for Ford SB & BB V-8 engines

Pressurized Oil enters port in Body

Proceeds into Axle and exits between the Axle and Wheel, creating an Oil-Wedge. The Wheel runs in the Oil-Wedge.

BLACK MAMBA ROLLER LIFTER SERIES®

New Product Announcement

Black Mamba .875 dia lifters for Ford SB/BB engines

- 1. Morel Motorsports is proud to announce we are adding new lifters to our Black Mamba Lifter selection of lifters in the .875" diameter for SB & BB Ford Engines. These new parts also feature our new improved oiling system which requires only one SKU for Ford Windsor AND Cleveland engines and only one SKU for Ford "FE" AND the Big Block 429/460 series.**
- 2. Lifter set P/N 6537 fits both Small Block Ford 302/351W and 351C/400M engines requiring all centered (no offset) lifters.**
- 3. Lifter set P/N 6541 fits both Small Block Ford 302/351W and 351C/400M engines requiring .150" right offset intake lifters paired with centered exhaust lifters.**
- 4. Lifter set P/N 6545 fits both Big Block Ford 429/460 and "FE" 352-428 engine series requiring all centered (no offset) lifters.**
